CONTENTS

Introduction

Thank you for choosing and purchasing this unit.
This instruction manual aims to provide you with installation and operating instructions for the unit.

⊙ Features

"Multi-tasking" refers to the simultaneous use of numerous programs or applications on one system.

➤ HIGH RESOULUTION & BRIGHT ACTIVE WIDE TFT LCD with Touch Screen

➤ 5 Step Automatic Motorized Viewing Angle

➤ Last Angle Memory

➤ Blue Back Light Control Buttons

➤ Full-Funtion Infrared Remote Control

➤ Max Output Power 50W x 4ch

➤ A/V INPUT , REARVIEW INPUT, A/V OUPUT

➤ Auto Dimmer Control

➤ Multi Screen Aspect (Normal , Full , Wide)

➤ Picture Adjustable (Brightness, Contrast, Color, Hue, Sharpness)

➤ NTSC/PAL Auto Selection

➤ DVD/DVD-RW/DVD-R/VCD/CD-R/CD-RW/MP3/JPEG

➤ DVD Last Position Memory

➤ Electronic Anti-Shock

➤ Built-in FM/AM Tuner

➤ Auto Scan Memory(ASM) Store/Preset Scan

➤ FM Frequency : 87.5 - 108Mhz, 12 Memory Preset(FM1/FM2)

➤ AM Frequency : 530Khz - 1720Khz , 6 Memory Preset(AM)

➤ Bulit-in Bluetooth for Bluetooth Enabled Device (Celluar Phone)

➤ IPOD Port

➤ Tell Mute Funtion

NOTE

● This instruction manual is only for reference.
● Modifying rights are reserved.
● Modifications are subject to change without notice.

Safety Precautions ⚠

## ⊙ To prevent injury or fire, take the following precautions:

➤ To prevent a short circuit, never put or Insert any metallic objects (such as coins or metal tools) inside the unit.

➤ Do not touch the liquid crystal fluid if the LCD is damaged or broken due to shock.
The liquid crystal fluid may be dangerous to your health or even fatal.

➤ If the liquid crystal fluid from the LCD contacts your body or clothing, wash it off with soap immediately.

➤ Do not watch Video or operate the unit while driving.
It may cause a car accident because of the distraction.
To enjoy Video Pictures, find a safe place to park, and engage the parking brake.

➤ This unit is a Class 1 laser product. To prevent direct exposure to laser system, do not open the unit.
The laser beam may hurt your eyes.

➤ Note that TFT LCD is very fragile and could be easily damaged. Do not press or scratch the surface.

➤ Keep away the liquid from the main body to avoid possible electric shock or damage.

➤ Do not attempt to service this product by yourself.
(Don't repair this unit by yourself to avoid serious damage)

➤ In case of smoking or malfunction from the monitor, power off this unit immediately and contact dealer for service.

➤ It is the responsibility of the purchaser and installer to comply with all applicable laws and regulations governing the installation and use of this unit.

➤ Manufacturer disclaims all liability for any property damage or personal injury that may result from improper or unintended installation or use of this unit.

⊙ To prevent damage to the unit, take the following precautions.

➤ Make sure to ground the unit to a negative 12V power supply.

➤ Do not install the unit in a spot exposed to direct sunlight or excessive heat or humidity.
Also avoid places with too much dust or Moisture.

➤ To prevent deterioration, do not touch the terminals of the unit or faceplate with your fingers.

➤ Do not subject the faceplate to excessive shock, as it is a piece of precision Components.

➤ Don't watch Video pictures while the car's engine is off. (It may drain the battery)

➤ When replacing a fuse, only use a new fuse with prescribed rating. Using a fuse with the wrong rating may cause your unit to malfunction.

➤ Use only the screws provided. If you use the wrong screws, you could damage the unit.

➤ You cannot view video pictures while the vehicle is moving.
To enjoy TV/video pictures, find a safe place to park and engage the parking brake.

⊙ Loading and Replacing the remote battery

1 Use two "AAA" size batteries.
Slide the cover while pressing downwards to remove it as illustrated.

2 Insert the batteries with the + and - poles aligned properly, following the illustration inside the case.
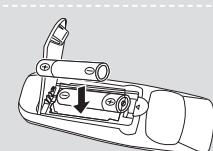

Warning ⚠

⊙ Cleaning the panel and monitor

☀ When the control panel and monitor panels are dirty, wipe and clean them using a soft cloth
(such as a commercially available silicon coated cloth).

☀ When contaminated excessively, clean them using a cloth dipped in a neutral detergent first ,
then remove the detergent using a dry cloth.

☀ Do not use a hard cloth or a volatile chemical (such as an alcohol).

⊙ Cleaning the disc slot

☀ As dust can accumulate in the disc slot, clean it occasionally.
Your discs can get scratches if you put them in a dusty disc slot.

⊙ Lens Fogging

☀ Right after you turn on the car heater in cold weather, dew or condensation may form on the lens
in the disc player of the unit causing lens fogging, discs may be impossible to play. In such a
situation, remove the disc and wait for the condensation to evaporate.

☀ If the unit still does not operate normally after a while, consult your dealer.

Caution

● If it is activative with over limited output, it will down the volume output for the safety set.

● Volume function will be stop temporarily untill the set become stabile status.
(After the set is stabile, Volume function will be keep in stabile status.)

Name and Function of Each Parts

⊙ Remote Control Description

❼ SEEK- (◀◀) button
* Short key: Lowers the radio frequency.
* Long key: Slows the play speed by two times in DVD mode.

❽ NEXT (▶▶|) button
The track changes up each time when it is pressed.
Increases radio frequency.
* Long key: Plays the next track in DVD mode.

❾ SEL button
Selects the mode that you choose in MODE selection screen.

❿ PREV (|◀◀) button
The track changes down each time when it is pressed.
Decreases radio frequency.
* Long key: Plays the previous track in DVD mode.

⓫ SETUP button
Turns the SETTING MENU ON/OFF in all modes.
Pressing the Long key in DVD mode selects the DVD Setup menu.

⓬ Play/Pause (▶||) button
Pauses and replays a disc.

⓭ Stop (■) button   Stops a disc.

⓮ ASM button
Auto frequency scan in radio mode.

⓯ MUTE button
You can turn on or off the sound by pressing the button. except Auto Search Frequency,
Seek + button or Seek - button.

⓰ Volume +   Adjust the volume up.

⓱ BAND button
Selects radio mode each time press the button.
Mode will change as follows : **AM ▶ FM1 ▶ FM2**

⓲ MENU button   Returns to the root menu.

⓳ Volume -   Adjust the volume down.

⓴ GOTO button
Selects a chapter that you want to go. Press the "SEL" button after you input a chapter number.

㉑ A-B button   Selects a repeat interval or OFF.

㉒ LANG button   Selects a LANGUAGE.

㉓ SUB-T button   Selects a SUB-TITLE or OFF.

㉔ ANGLE button   Selects a view angle in DVD mode.

㉕ ZOOM button
Enlarges a screen each time you press it in DVD mode as follows : **X1.5 ▶ X2 ▶ X3 ▶ X4 ▶ ZOOM OFF**

㉖ REPEAT button
Repeats a TITLE or CHAPTER.
Menu will changes as follows: **REPEAT CHAPTER ON ▶ REPEAT TITLE ON ▶ REPEAT OFF.**

㉗ TITLE button
Returns to the DVD root menu.

---

❶ Power button
You can turn on or off the power by pressing the button.

❷ Eject (▲) button   To Release Disc.

❸ Mode button
Selects one of the following mode by pressing the button.
DVD ▶ SD CARD ▶ iPod ▶ RADIO ▶ AV ▶ B/T.

❹ DISP button
Selects the one of the following time display mode in **AUDIO CD. SINGLE ELAPSED, TOTAL ELAPSED, TOTAL REMAIN, OFF**
Selects the one of the following time display mode in **DVD. TITLE REMAIN, CHAPTER ELAPSED, CHAPTER REMAIN, DISPLAY OFF.**

❺ TILT button
Selects one of the following view angle by pressing the button.
15˚ ▶ 30˚ ▶ 45˚ ▶ 60˚ ▶ 75˚ degrees.

❻ SEEK+ (▶▶) button
* Short key: Increases the radio frequency.
* Long key: Doubles the play speed in DVD mode.

Mode Selection

01 Press the < ⏻ > Power button and the recently selected mode is set automatically.
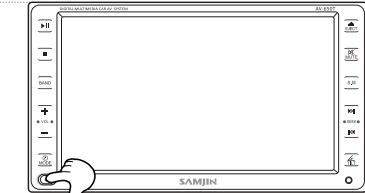

02 Press the < MODE > button to change the mode.
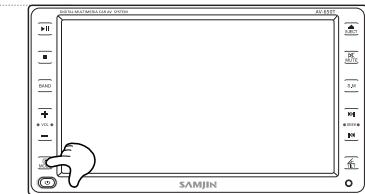

03 The mode changes each time when the < MODE > button is pressed.

As the mode cycles through a sequence of
[**DVD ▶ SD CARD ▶ iPod ▶ RADIO ▶ AV ▶ B/T**],
, touch the desired mode to select.
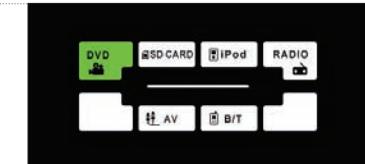

> **NOTE**
> ● If left on the recently selected mode for five seconds, that mode is automatically selected and the screen changes accordingly.

⊙ RADIO Detailed Functions

01 **ASM [ASM]**

Auto Search Memory

- Displays "ASM" as ASM begins, maintains OSD until "ASM mode" is disabled
  - Searches from the first frequency: FM (87.5Mhz), AM (530Khz)
  - ASM conducted only for frequencies matching the current BAND. (AM, FM1, FM2)
- ASM PRESET MODE & USER PRESET MODE
  1) After ASM, simultaneously saves both the PRESET and the directly saved USER PRESET. USER MODE (can save AM: 6ea, FM1: 6ea, FM2: 6ea), ASM MODE (6ea) Total: 24
  2) In USER PRESET state, operating the ASM KEY saves as ASM PRESET (converts to ASM Mode), in following, operates as ASM PRESET when PRESET KEY is pressed
  3) In ASM MODE, when changing the BAND by using the BAND KEY, returns to USER PRESET MODE. (ASM MODE disabled)
     When returning to USER MODE, resumes play of BAND and frequency most recently played in USER MODE
  4) When turning POWER ON/OFF, resumes ASM PRESET MODE until the BAND is changed

- To stop during ASM: Press SEEK, ASM, or BAND. (Skip remaining keys)
  - Maintains frequencies in memory before stopping in progress, erases ASM OSD (converts to USER MODE)
- After ASM completed, plays each of the six saved frequencies for five seconds to check status
- If ASM frequencies are less than six, previous frequencies in memory are maintained
- PRESET Default Frequencies
  - FM1 : 8770, 9010, 9810, 10610, 10790, 8770
  - FM2 : 8770, 9670, 10490, 10690, 10790, 8770
  - AM : 530, 600, 1000, 1600, 1720, 530
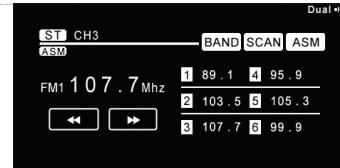

02 **PRESET 1~6**

- PRESET LOAD :
  - Select the corresponding PRESET ICON to play the corresponding frequency after it is displayed.
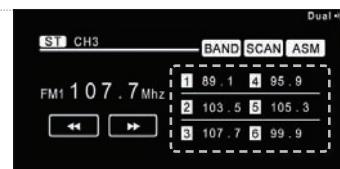

- PRESET SAVE :
  - Press the Long Key for more than one second to save the current frequency.
  - Displays the "SAVE" OSD for one second
- - Initial PRESET frequency of initial FM1, FM2, AM
